Vodafone Combo Cap and Vodafone Infinite Combo Plan Products

1. What Terms and Conditions apply to my Vodafone Combo Cap and Vodafone Infinite Combo Plan?

- (a) This document sets out the terms and conditions which apply to specific Vodafone contracts and products (collectively, the “Products”).
- (b) The terms and conditions that will apply to your Product or Products are:
 - (i) all the terms and conditions provided to you when you agree to purchase a Product, including all the terms and conditions contained in this document and any terms and conditions contained in any application form you complete when purchasing a Product; and
 - (ii) all the terms and conditions contained in the Vodafone Standard Form of Agreement (**SFOA**), which is available at vodafone.com.au,

(collectively, the “**Terms**”).
- (c) When you agree to purchase a Product you accept the Terms.
- (d) Your contract commences on your acceptance of the Terms, however any minimum contract term which applies does not commence until your service is activated.
- (e) The Terms may be changed by Vodafone from time to time. Vodafone will comply with relevant laws, regulations and industry codes if it makes any such changes.

For more information, call Vodafone on 1300 650 410 or visit vodafone.com.au.

2. Important Things You Need to Know

Availability

- (a) The Vodafone contracts and products referred to in the Terms (**Products**) are for personal use only, and are not available to medium to large business/corporate and commercial customers. Medium to large business/corporate and commercial customers should contact Vodafone for information about Vodafone’s business products.
- (b) The Products referred to in the terms are only available on selected devices and handsets as nominated by Vodafone.
- (b) The Products are available to eligible customers and credit approved customers, only.
- (c) Unless otherwise stated, only one Vodafone Product can be used per connection to our network.

- (d) Vodafone's Fair Use Policy applies to all Vodafone Products.
- (e) Devices may be locked to our network. A fee may apply to unlock.

Factors affecting availability and performance

- (a) Network coverage and many other factors may affect the availability and performance of certain Products.
- (b) Certain Products, services and functions are only available if used in conjunction with a compatible device and if in a compatible coverage area. Not all devices are compatible with our network.
- (c) Broadband speeds are available in Vodafone's 3G Mobile Broadband Standard Coverage area, and, if you have a 900MHz compatible modem (Vodafone Mega Modem or Pocket WiFi), in Vodafone's 3G Mobile Broadband Regional Coverage area (though these speeds will be slower than when in the Vodafone Mobile Broadband Standard Coverage area). If you have a modem which is not 900MHz compatible (i.e. the Standard USB Modem), then you will only have coverage in Australia within Vodafone's Mobile Broadband Standard Coverage area. See www.vodafone.com.au/ coverage for coverage details and vodafone.com.au/devicefrequency for details of devices and their frequencies.
- (d) All Vodafone services are subject to device capabilities and network limitations and availability. A compatible 3G device is required to access 3G services. Vodafone offers U2100Mhz, U850MHz and U900Mhz devices. If you have a modem which is U2100MHz or U2100/850MHz compatible but not U900MHz compatible you will experience 3G coverage in metro and some regional areas (3G Mobile Broadband Standard Coverage area) but no coverage at all in other areas of Australia. Broadband speeds and high bandwidth applications, such as video streaming, video calling, Mobile TV and full track downloads, are only available in Vodafone's 3G Mobile Broadband Standard Coverage area, and, if you have a U900Mhz compatible device only, Vodafone's 3G Mobile Broadband Regional Coverage area (however speeds in this area will be slower than when in the Vodafone Mobile Broadband Standard Coverage area). See www.vodafone.com.au/ coverage for coverage details and vodafone.com.au/devicefrequency for details of devices and their frequencies.
- (e) The Terms and brochures describing Products contain details regarding device compatibility, network capability and availability relating to the "Vodafone" network. Notwithstanding anything else in our contract with you, we may provide services to you using any telecommunications network we consider appropriate and that network will constitute "our network" for the purpose of the Terms, including (but not limited to) the "Vodafone" networks operated by, for or on behalf of Vodafone Network Pty Limited and Vodafone Australia Pty Limited and the "3" network operated by, for or on behalf of Vodafone Hutchison Australia Pty Limited. For more information about these networks, see the coverage maps available at www.vodafone.com.au/coverage and www.three.com.au/coverage

Data services

- (a) For data Products, a data session starts when you first connect to data services and ends when you disconnect from data services.
- (b) When using data Products, some internet services, including web sites and email, may not be accessible.
- (c) Subject to your rights under the *Trade Practices Act 1974* or other relevant legislation, Vodafone does not make any warranty regarding any software or data provided to you, including with respect to how that software or data operates on your computer or interacts with your other applications.
- (d) Unless otherwise stated, data usage is measured as the combination of both data you send (upload) and receive (download) over our network.

Data service access devices

- (a) It is your responsibility to confirm that data service access hardware (including any Modem or Pocket WiFi™ device) is compatible with each PC, laptop or other computing device that you will use your Product with (if appropriate).
- (b) Non-Vodafone supplied USB Modems or Tablet devices can only work on our network if they are compatible, unlocked, and have not been reported as lost or stolen devices.
- (c) Vodafone is not required to provide you with technical support if you use non-Vodafone supplied data service access hardware (such as your own USB Modem or Tablet device), although Vodafone may do so at its discretion.
- (d) The Pocket WiFi™ device can operate with a maximum of 5 WiFi enabled devices at any one time.

Rates and charges

- (a) Some Products have a minimum contract term. If your contract is terminated before the end of this term, both mobile and mobile broadband services will end. You may also be required to pay fees, such as an Early Exit Fee or a Handset Recovery Fee. Depending on the Product this may be in addition to any applicable handset or device payments and additional or excluded call, data or service costs. Early Exit Fees are set out in the pricing table for your Product.
- (b) Details of the rates and charges, including any minimum spends which apply to the Products, are contained in the Terms. The minimum total cost over contract term is calculated by multiplying the minimum monthly spend by the contract term.
- (c) If your usage of a Product exceeds your included value, or you use a Product that is not payable from your included value, you will be charged an amount additional to your minimum monthly spend.

- (d) Unless otherwise stated, if you do not use all your included value in the relevant month, that included value is forfeited, is not refundable, and will not carry over into any other month.
- (e) Each charge is rounded up to the nearest cent before GST is included.
- (f) All rates and charges are subject to change. We will comply with relevant regulations and industry codes with respect to such changes.

Billing

- (a) In your first bill, you will be charged your minimum monthly spend for the following month. Your first bill may also include a prorated amount from the date you connected to your first bill.
- (b) You may choose to purchase additional Products from time to time. These charges will be applied to your bill.
- (c) Paperless billing is the default bill delivery method for Vodafone customers. Vodafone will provide paper bills without charge to disabled or disadvantaged customers. Otherwise, Vodafone will not provide paper bills except in special circumstances, in which case, at its discretion, Vodafone may charge \$2.20 per paper bill.
- (d) Your Included Data may appear on your bill as two separate entries (for example, for the Vodafone \$15 Month to Month Mobile Broadband Product, the 1.5GB of included data may appear on your bill as one entry of 1GB and a second entry of 500MB).
