2. Important Things You Need to Know

Availability

- a) The Products are for small to medium business use only, and are not available to large business/corporate and commercial customers. Large business/corporate and commercial customers should contact Vodafone for information about Vodafone's corporate business products.
- b) "Unlimited" or "Infinite" offerings in the Products are only for standard person-to-person national calls and standard TXT (excludes premium and special numbers) all when made within Australia. So to use these offerings all you have to do is make sure you'll be talking to another person, or using your fingers to TXT them. These offerings are not for you if you plan to do any of the following: multiple simultaneous calling, re-supply, call centre usage, telemarketing, bulk messaging, application-to-person communication, continuously call forwarding, auto-dialling, machine to machine communication (including by using your SIM in any other device), Cellular Trunking Units (CTUs), or any other activity which does not involve standard person-to person national calls and standard TXT (Non-Standard Usage).
- c) Vodafone reserves the right to determine other activities to be Non-Standard Usage, where such activities are of a commercial nature and/or do not involve standard person-to person national calls and standard TXT-Vodafone considers to be non standard usage.
- d) The Products are available to credit approved customers only.
- e) Vodafone's Fair Use policy applies to all Vodafone Products.

Factors affecting availability and performance

- a) Network coverage and many other factors may affect the availability and performance of certain Products.
- b) Certain Products, services and functions are only available if used in conjunction with a compatible mobile or other device and if in a compatible coverage area. Not all devices are compatible with Vodafone networks.
- c) Broadband service: Some Vodafone 4G, 3G+ and 3G services are mobile broadband, internet, email, apps, downloading, video streaming and video calling. You can use Vodafone 4G if you have an eligible phone plan and have been switched over to the 4G network. To use 4G and 3G+ you'll also need a compatible device and be in a selected major metropolitan area. Outside these areas, you can still get Broadband Speeds in our 3G areas with the right device. To check this, make sure your device is compatible to the network zone you are in (U2100MHz, U850MHz or U900MHz). Remember that actual speeds you reach will vary depending on things like device capabilities, location & network congestion. Broadband Speeds not available in any 2G area. Actual speed achieved varies depending on factors such as device capabilities, location & network congestion. See vodafone.com.au/coverage for coverage. You agree to refer to vodafone.com.au/coverage for coverage details and vodafone.com.au/devicefrequency for details of devices and their frequencies before purchase, so that you can confirm that for your intended use of the services, your address/es are located in the appropriate Vodafone coverage areas and that the device you wish to select is compatible with the Vodafone coverage area where your address/es are located.
- d) The Terms contain details regarding device compatibility, network compatibility and availability relating to the "Vodafone" network. However, notwithstanding anything else in our contract with you, we may provide services to you using any telecommunications network we consider appropriate and that network will constitute "our network" for the purpose of the Terms. For more information about the "Vodafone" network, see vodafone.com.au/coverage.

Data services

- a) For Products that provide data access capabilities, a data session:
 - i. **starts** when you begin internet activity, either directly or indirectly* on your mobile device; and
 - ii. **ends** when your data connection is lost. This will happen when:
 - a. you turn your mobile device off;
 - b. turn your data connection off;
 - c. switch to flight mode;
 - d. when you lose network reception; or
 - e. your mobile device has not sent or received data for a period of time .

*Direct internet activity is when you prompt your mobile device to send or receive data from the internet. For example; when you send an email. Indirect internet activity is when your mobile device or mobile applications are set up to send or receive data from the internet on your behalf. Examples include (but are not limited to): Email notifications via Gmail, notification of Tweets or Facebook posts which mention you and software or weather updates.

- b) When using data services, some internet services, including web sites and email, may not be accessible.
- c) Subject to your rights under the *Competition and Consumer Act 2010* or other relevant legislation (including the *Australian Consumer Law*), Vodafone does not make any warranty regarding any software or data provided or available to you in connection with data services, including with respect to how that software or data operates on your device or interacts with applications.
- d) Unless otherwise stated, data usage is measured as the combination of both data you send (upload) and receive (download).

Rates and charges

- a) Details of the rates and charges, including any minimum spends which apply to the Products are contained in the Terms. The minimum total cost over contract term is calculated by multiplying the minimum monthly spend by the contract term.
- b) The Vodafone Business Plan Products feature a “**Plan Allowance**” which is made up of an “Included Value” allowance (which can be used to pay for many (but not all) services available from Vodafone at the rates set out in the section of the terms titled “Vodafone Rates: What is included in my Product’s Plan Allowance”) and an “Included Data” allowance. Vodafone Red Business Products also feature a “Plan Allowance” which is made up of an “Included Data” allowance, an “Included International Minutes” allowance and an “Infinite” allowance (which provides you with infinite access to many (but not all) services available from Vodafone - see the section of the Terms titled “Vodafone Rates: What is included in my Product’s Plan Allowance?” for full details).
- c) If your usage of a Product exceeds any part of your Plan Allowance, or you use a service that is not payable from your Plan Allowance, you will be charged an amount additional to your minimum monthly spend.
- d) Unless otherwise stated, if you do not use all your included Plan Allowance in the relevant month, any remaining Plan Allowance is forfeited, is not refundable, and will not carry over into any other month.
- e) Once your Included Data allowance (including any Included Data offered with a Data Add-on, if applicable) has been exhausted, any additional data usage in that billing month will be charged in blocks of 1GB for a cost of \$10 per block (**Additional Data**). Additional Data blocks will be triggered both in Australia and in Eligible Countries (if you are opted-in to \$5 Roaming). There is no limit to how many Additional Data blocks you can trigger. For example, if your plan has 1GB of monthly Included Data but you use a total of 3.5GB of data in that month, you will be

Terms & Conditions

Vodafone Business Plans and Vodafone Red Business

charged an \$30 in Additional Data charges (as you have triggered 3 x 1GB Additional Data blocks). Any unused Additional Data is forfeited at the end of the billing month and is unable to be rolled over, transferred, exchanged or redeemed for cash. Charges for Additional Data cannot be paid from your Vodafone Business Plan Product or Vodafone Red Business Product's Plan Allowance and will be charged on top of your minimum monthly spend. If you have a Vodafone Data Add On Product that you purchased prior to 2 July 2014 but you sign up to a Vodafone Business Plan Product or a Vodafone Red Business Product on or after 2 July 2014, you agree that the Additional Data rate will apply to your usage, and not any other rate for excess data that has previously applied on your existing Vodafone Data Add On Product until that point.

- f) Unless otherwise stated, the section of the Terms titled "Vodafone Rates: What is included in my Product's Plan Allowance" specifies which services are or are not included with your Plan Allowance and the rate at which additional and excluded services will be charged.
- g) Each charge is rounded up to the nearest cent before GST is included.
- h) Unless otherwise stated, rates specified for services are GST inclusive.
- i) Unless otherwise stated, call usage is billed in blocks of 60 seconds for the Products. Usage is rounded up to the end of the current block.
- j) Unless otherwise stated, data usage is charged in per kilobyte blocks.
- k) All rates and charges are subject to change. Vodafone will comply with relevant regulations and industry codes with respect to such changes.

Billing

- a) In your first bill, you will be charged your minimum monthly spend for the following month. Your first bill may also include a prorated amount from the date you connected to your first bill.
- b) You may choose to purchase additional Products from time to time. Charges for these Products will be applied to your bill.
- c) Paperless billing is the default bill delivery method for Vodafone customers.
- d) Vodafone will provide paper bills without charge to disabled or disadvantaged customers. Otherwise, Vodafone will not provide paper bills except in special circumstances, in which case, at its discretion, Vodafone may charge \$2.20 per paper bill.
