If your contract is terminated before the end of this term, your services will end and you may also be required to pay fees, such as an Early Exit Fee. Depending on the Product this may be in addition to any applicable device payments and additional or excluded call, data, or service costs. - f. The data allowances of a Sharing Group will automatically combine into one pool which will be shared between eligible users on a first-in-first-served basis. For the avoidance of doubt, all non-data allowances (by way of example, international minutes or content options, if applicable) cannot be shared amongst the Sharing Group and will remain accessible only by the eligible user of each individual plan Product.
- g. The Your Max Speed Data allowances of a Plus Plan Sharing Group will automatically combine into one pool which will be shared between eligible users on a first-in-first-served basis however the additional usage which is throttled at 1.5Mbps will not be shared. For the avoidance of doubt, all non-data allowances (by way of example, international minutes or content options, if applicable) cannot be shared amongst the Plus Plan Sharing Group and will remain accessible only by the eligible user of each individual plan Product.
- h. The data included in any Plan on your account which is a Vodafone Plus Plan (including Red Plus Plans, SIM Only Plus Plans, Red Data Plus Plans, and SIM Only Data Plus Plans) is not shareable with Vodafone Postpaid Plan Products (including Red Plans, SIM Only Plans, Red Data Plans, and SIM Only Data Plans), and vice versa.

Holder can:

- i) View their personal account usage details;
- ii) View the aggregated usage details of the entire group;
- iii) Receive Spend Alerts relating to the aggregated usage of the group; and
- iv) Trigger excess or excluded usage charges, and the Daily Charge for the \$5 Roaming service.

- p. If you do not want an Eligible Sharing Product to form part of a Sharing Group or Plus Plan Sharing Group you can opt-out by calling 1555 or going into a Vodafone store.

### Use of the Primary Account PIN:

You will be issued a Primary Account PIN. You must keep this Primary Account PIN confidential and must not disclose the Primary Account PIN to any other party, including those who you grant access to Eligible Sharing Products connected to your account (if any). Doing so will compromise privacy across the entire range of Products connected to your account (for example, the usage information of each Eligible Sharing Product may become visible and accessible by all other users in the Sharing Group or Plus Plan Sharing Group if the Primary Account PIN is shared). It may also compromise the security of sensitive information such as credit card details, and will allow those with access to the PIN to, amongst other things, add, cancel, or change services connected to the Primary Account and/or purchase additional hardware, which is otherwise the exclusive right of the Account Holder.

### Factors affecting availability and performance

- a. Network coverage and many other factors may affect the availability and performance of certain Products.
- b. Certain Products, services and functions are only available if used in conjunction with a compatible device and if in a compatible coverage area. Not all devices are compatible with our network.
- c. Broadband service: Some Vodafone 4G, 3G+ and 3G services are mobile broadband, internet, email, apps, downloading, video streaming, and video calling. You can use Vodafone 4G if you have an eligible Plan and have been switched over to the 4G network. To use 4G and 3G+ you'll also need a compatible device and be in a selected major metropolitan area. Outside these areas, you can still get Broadband Speeds in our 3G areas with the right device. To check this, make sure your device is compatible to the network zone you are in (U2100MHz, U850MHz or U900MHz). Broadband Speeds not available in any 2G area. You agree to refer to [vodafone.com.au/coverage](http://vodafone.com.au/coverage) for coverage details and [vodafone.com.au/devicefrequency](http://vodafone.com.au/devicefrequency) for details of devices and their frequencies before purchase, so that you can confirm that for your intended use of the services, your address/es are located in the appropriate Vodafone coverage areas and that the device you wish to select is compatible with the Vodafone coverage area where your address/es are located.

- d. If, from time to time, we provide additional Services in Australia, where you may Roam on a network in a Non-Vodafone Coverage Area, we may also restrict the availability or the speeds of some Services, such as Data Services, in the Non-Vodafone Coverage Area. To see the Vodafone Coverage Areas covered by the Vodafone Network please go to [vodafone.com.au/network/coverage-checker](http://vodafone.com.au/network/coverage-checker). ### Data services

- a. For Products that provide data access capabilities, a data session:
  - i) Starts when you begin internet activity, either directly or indirectly\* on your mobile device; and
  - ii) Ends when your data connection is lost. This will happen when:
    - 1. You turn your mobile device off;
    - 2. Turn data connection off;
    - 3. Switch to flight mode;
    - 4. When you lose network reception; or
    - 5. Your mobile device has not sent or received data for a period of time

\*Direct internet activity is when you prompt your mobile device to send or receive data from the internet. For example: when you send an email. Indirect internet activity is when your mobile device or mobile applications are set up to send or receive data from the internet on your behalf. Examples include (but are not limited to): Email notifications via Gmail, notification of Tweets or Facebook posts which mention you, and software or weather updates.

- b. When using data Products, some internet services, including web sites, applications and email, may not be accessible.

They should only be purchased and used with a single tablet or iPad.
- b. Non-Vodafone supplied USB or Wi-Fi Modems or Tablet devices can only work on our network if they are compatible, unlocked, and have not been reported as lost or stolen devices.
- c. Vodafone is not required to provide you with technical support if you use non-Vodafone supplied data service access hardware (such as your own USB or Wi-Fi Modem, or Tablet device), although Vodafone may do so at its discretion.
- d. Vodafone Pocket WiFi™ 2 4G modem can operate with a maximum of 16 Wi-Fi enabled devices at any one time
- e. Huawei WiFi Gateway 2 4G modem can operate with a maximum of 64 compatible Wi-Fi enabled devices at any one time. When using this device outside our 4G areas, coverage is limited. Check our 4G areas at [vodafone.com.au/coverage](http://vodafone.com.au/coverage)

- a) The following terms and conditions apply to Vodafone Postpaid Red Data Month to Month Plans, SIM Only Data Month to Month and 12 Month Plan Products, and \$5 Mobile Broadband Share SIM Product:
  - 1. Your Included Data allowance and any Additional Data allowances you have triggered (for \$5 Mobile Broadband Share SIM Product this will be the Included Data or Additional Data of the Eligible Sharing Product) can be used in Australia, on Vodafone networks. You can also use your Included Data allowance and any applicable Additional Data (for \$5 Mobile Broadband Share SIM Product this will be the Included Data or Additional Data of the Eligible Sharing Product) overseas while you:
    - i. remain opted-in to Vodafone \$5 Roaming (you are automatically opted-in to \$5 Roaming upon activation however you can opt-out at any time by contacting Customer Care); and
    - ii. are roaming in an Eligible Country.
  - 2. In return for this service, when you (or, for Sharing Groups, any member of a Sharing Group) perform a Trigger Event (which includes using any amount of data) in an Eligible Country on any given day, we will apply the **Daily Charge** to your account. For the avoidance of doubt, the \$5 Daily Charge is payable per day per service – so, by way of example, for Sharing Groups, if two members of the Sharing Group both perform a Trigger Event on the same day, the \$5 Daily Charge will be payable for **both** services.
  - 3. The \$5 Roaming Daily Charge is charged in addition to your Plan fees.
  - 4. If you (or, for Sharing Groups, any member of a Sharing Group) use up your Included Data while overseas in an Eligible Country, you will be charged for any further data use as per your normal Additional Data rate and you will be able to continue to use the Additional Data allowance granted to you in Eligible Countries while \$5 Roaming is active for that service.
  - 5. For those who are eligible to access Vodafone \$5 Roaming, it is limited to a maximum usage of 90 days per calendar year. We may remove Vodafone \$5 Roaming from your service if you do not comply with this condition.

# Terms & Conditions

## Vodafone Postpaid Mobile Broadband Plans

1. Your Max Speed data allowance can be used in Australia, on Vodafone networks. You can also use Your Max Speed Data allowance, and trigger Additional \$5 Roaming Data allowances once Your Max Speed Data allowance has been exhausted (as described below at 3.), overseas while ever you:
  - iii. remain opted-in to Vodafone \$5 Roaming (you are automatically opted-in to \$5 Roaming upon activation however you can opt-out at any time by contacting Customer Care); and
  - iv. are roaming in an Eligible Country.
2. In return for this service, when you (or, for Plus Plan Sharing Groups, any member of a Plus Plan Sharing Group perform a Trigger Event (which includes, but is not limited to using any amount of data) in an Eligible Country on any given day, we will apply the Daily Charge to your account. For the avoidance of doubt, the \$5 Daily Charge is payable per day per service – so, by way of example, for Plus Plan Sharing Groups, if two members of the Plus Plan Sharing Group both perform a Trigger Event on the same day, the \$5 Daily Charge will be payable for both services.
3. For the avoidance of doubt, you can only use your Your Max Speed data allowance while \$5 Roaming, not the remaining data which continues at 1.5Mbps while in Australia. Once Your Max Speed data allowance has been exhausted, any additional data usage in that billing month on your account while \$5 Roaming will be charged in blocks of 1GB for a cost of \$10 per block (Additional \$5 Roaming Data). There is no limit to how many Additional \$5 Roaming Data blocks you can trigger. Additional \$5 Roaming Data can only be used while roaming in an Eligible Country, will expire at the end of the billing month in which it is triggered and cannot be transferred, exchanged or redeemed for cash. Additional \$5 Roaming Data cannot be used in Australia or any other country which is not an Eligible Country. Charges for Additional \$5 Roaming Data cannot be paid from your Product's Plan Allowance and will be charged on top of your minimum monthly spend.
4. The \$5 Roaming Daily Charge is charged in addition to your Plan fees.
5. For those who are eligible to access Vodafone \$5 Roaming, it is limited to a maximum usage of 90 days per calendar year. We may remove Vodafone \$5 Roaming from your service if you do not comply with this condition.

### Rates and charges

- a. Details of the rates and charges, including any minimum spends which apply to the Products, are contained in the Terms. The minimum total cost over contract term is calculated by multiplying the minimum monthly spend by the contract term.
- b. Unless other indicated, if usage of a Product exceeds any part of your Plan Allowance, or you use a service that is not payable from your Plan Allowance, you will be charged an amount additional to your minimum monthly spend.

# Terms & Conditions

## Vodafone Postpaid Mobile Broadband Plans

- c. Unless otherwise stated, if you do not use all your included Plan Allowance in the relevant month, any remaining Plan Allowance is forfeited, is not refundable, and will not carry over into any other month.
- d. For all Plans (except Vodafone Red Data Plus Plans, SIM Only Data Plus Plans and Home Wireless Plans), once your Monthly Included Data allowance has been exhausted, any additional data usage on your account in that billing month will be charged in blocks of 1GB for a cost of \$10 per block (Additional Data). Additional Data blocks will be triggered both in Australia and overseas, when you are in Eligible Countries (if you are opted-in to \$5 Roaming). There is no limit to how many Additional Data blocks you can trigger. For example, if your Plan has 1GB of monthly Included Data but you use a total of 3.5GB of data in that month, you will be charged \$30 in Additional Data charges (as you have triggered 3 x 1GB Additional Data blocks). Any unused Additional Data will be rolled over for one billing month. After this it will expire (it cannot be transferred, exchanged or redeemed for cash). For the avoidance of doubt please note that Included Data does not rollover. Charges for Additional Data will be charged on top of your minimum monthly spend. If you have a Vodafone Data Add-on Product that you purchased prior to 2 July 2014 but you sign up to a Vodafone Red Month to Month Plan, a Vodafone SIM Only Month to Month Plan, a Vodafone SIM Only 12 Month Plan or a \$5 Mobile Broadband Share SIM 12 Month Plan on or after 2 July 2014, you agree that the Additional Data rate will apply to your usage, and not any other rate for excess data that has previously applied on your existing Vodafone Data Add-on Product until that point. For the avoidance of doubt, if your account includes a Sharing Group, any member of that Sharing Group can trigger the Additional Data charge, but all Additional Data allowances will then be shared amongst the Sharing Group as normal.
- e. For Vodafone Postpaid Red Data Plus Plan and SIM Only Data Plus Plans, there are no Additional Data charges while using data within Australia (however, if you exceed the Your Max Speed data allowance while using \$5 Roaming, Additional \$5 Roaming Data charges will apply – see “Section 3 - International Roaming” above for more details). Once the Your Max Speed data allowance included in your plan (see Section 4 for details) has been exhausted, any additional data usage within the Vodafone Coverage Area in Australia in that billing month on your account will be restricted to up to a maximum speed of 1.5Mbps. The actual speeds you experience will vary - see “Section 3 - Factors Affecting Availability and Performance” above for more details.
- f. If you are overseas and not in an Eligible Country or not opted in to \$5 Roaming, rates for Additional Data vary, check [vodafone.com.au/roaming](http://vodafone.com.au/roaming) for more info.
- g. Unless otherwise stated, if you do not use all your included value in the relevant month, that included value is forfeited, is not refundable, and will not carry over into any other month.
- h. Unless otherwise stated, Section 5 below titled “Vodafone Rates: What is Included in my Product’s Plan Allowance?” specifies which services are or are not included with your included Plan Allowance and the rate at which additional and excluded services will be charged. Each charge is rounded up to the nearest cent before GST is included.
- i. Unless otherwise stated, rates specified for services are GST inclusive.
- j. Unless otherwise stated, call usage is billed in blocks of 60 second increments. Usage is rounded up to the end of the current increment.
- k. Unless otherwise stated, data usage is charged in per kilobyte blocks.

### Additional Important Things You Need to Know

- a. Home Wireless Plan available only (i) to approved customers, (ii) for personal use at an approved service address (**Approved Address**) and (iii) while stocks last.
- b. In order to purchase a Home Wireless Plan, you must simultaneously purchase from Vodafone the Huawei WiFi Gateway 2 4G (“Home Wireless Modem”) under a Mobile Payment Plan of 36 months duration (“**Commitment Period**”). You cannot bring your own modem or purchase one outright from Vodafone and sign up to a Home Wireless Plan. Section 5 of the SFOA (“Terms and Conditions for Mobile Payment Plan and Accessories Payment Plan”) sets out the applicable terms and conditions for your Mobile Payment Plan. The following additional terms apply for Home Wireless Plans (to the extent of any inconsistency between the two, the below terms shall prevail):
  - i) Mobile Payment Plan is available for personal use only to approved customers who connect and remain connected to an active and eligible Home Wireless Plan;
  - ii) The outright price of your Home Wireless Modem (as set by Vodafone at the time of purchase) will be spread in equal instalments over your Commitment Period.
  - iii) If during your Mobile Payment Plan Commitment Period, you cancel your Home Wireless Plan, your Mobile Payment Plan will also be automatically cancelled and 100% of remaining Mobile Payment Plan instalments plus outstanding charges on your Home Wireless Plan will be applied to your next bill. For example, if you

## Vodafone Postpaid Mobile Broadband Plans

leave your plan in month 12 of the Commitment Period, you will pay \$132 (\$5.50 x 24 months) for the Mobile Payment Plan.

- c. Home Wireless Plans include an allowance of your Included Data. Included Data means data at the fastest speed the Vodafone Network can deliver to you, depending on your device, the time and place you are using data, and de-prioritisation. Once the allowance of your Included Data is exhausted, further data use in that billing cycle will be restricted to up to a maximum speed of at 1.5Mbps. The actual speeds you experience will continually vary depending on many factors such as de-prioritisation, network congestion, device capabilities, location, and network coverage. - see "Section 2 - Factors Affecting Availability and Performance" above for more details.
- d. Home Wireless Plans use our 4G Vodafone Network and may be subject to data de-prioritisation. Data de-prioritisation means that some data traffic will receive less priority over other traffic on the Vodafone Network. During peak periods or congestion, we may manage the Vodafone Network by de-prioritising the internet traffic of certain data users, including both your Included Data and your data at speeds of up to 1.5Mbps. This could mean that during periods of congestion you may experience slower speeds than 1.5Mbps and the speeds experienced may be different to the speeds experienced using our other services supplied over the Vodafone Network.
- e. Once connected to your Home Wireless Plan we may send you up to two surveys asking for feedback on your Home Wireless Plan. The surveys may concern our processes and your experience using your Home Wireless Plan.

### Availability:

- a) Home Wireless Plan is available strictly to customers residing in selected areas in Australia. A Vodafone representative is required to confirm that your home address is eligible to connect to this Plan, based on 4G indoor coverage being available in your area (as defined by [vodafone.com.au/coverage](http://vodafone.com.au/coverage)). Home Wireless Plan is only for use at your Approved Address.
- b) Home Wireless Plan Products can only be used with the Home Wireless Modem. You must have a valid Vodafone micro-SIM inserted in your Home Wireless Modem.
- c) Data offerings in Home Wireless Plans are only for standard access in Australia to data from compatible Wi-Fi and Ethernet devices as connected to your Home Wireless Modem, and only for your individual use. This offering is not for you if you plan to do any of the following: use any Application that is designed to avoid data de-prioritisation or bypass speed controls, or Non-Standard Data Usage.

### Factors affecting speed:

- a. The performance and speed of your service depends on several factors, such as: location, data de-prioritisation, number of devices connected to Home Wireless Modem, device connection to Home Wireless Modem (via Wi-Fi or Ethernet), positioning of Home Wireless Modem in your residence, network congestion, and network coverage. To find out more information on speed and whether this plan is suitable for your usage needs, please refer to our Home Wireless Support page at [vodafone.com.au/homewireless](http://vodafone.com.au/homewireless).

### Sharing

- a) Your Home Wireless Plan does not share data with your Vodafone Postpaid Product (if applicable).
- b) Please refer to your Vodafone Postpaid Product details at [Vodafone.com.au](http://Vodafone.com.au) to learn more about sharing.

### Data service access devices

- a. Home Wireless Modem can operate with a maximum of 64 compatible Wi-Fi enabled devices at any one time (up to 32 enabled devices on 2.4GHz connection, up to 32 enabled devices on 5GHz connection). Consult your device manual to determine if your device can connect to Wi-Fi via 2.4GHz and/or 5GHz connections. You can connect up to 4 wired devices using the 4 Ethernet ports.

### Moving plans

- a) You may change your Home Wireless Plan to a higher value Home Wireless Plan during your bill cycle by calling Customer Care and agreeing to the terms and conditions of the new Home Wireless Plan. If you wish to make this change with immediate effect, a booster can be purchased as explained below under Home Wireless Booster.

Once your Included Data allowance of your plan has been exhausted, any additional data usage within the Vodafone Coverage Area in Australia in that billing month on your account will be restricted to up to a maximum speed of 1.5Mbps. The actual speeds you experience will vary – see “Factors affecting speed” above and “Section 3 - Factors Affecting Availability and Performance” above.

### My Vodafone

- a. Your Included Data allowance may be referred to as Your Max Speed data within My Vodafone for Home Wireless Plans. For the avoidance of doubt, in My Vodafone for Home Wireless Plans any reference to Your Max Speed Data is referring to your Included Data allowance.
