

T&Cs

All Vodafone services subject to device capabilities and network limitations and availability. Compatible 3G device required to access 3G services. Vodafone offers 2100Mhz devices and 900Mhz devices. Customers with devices that are 2100MHz compatible but not 900MHz compatible will experience 3G coverage in metro and some regional areas and GPRS (or Edge, where available) coverage in 900MHz areas. High bandwidth applications, such as video streaming, video calling, some Vodafone live! services, Mobile TV and full track downloads, only available in Vodafone's 3G Mobile Broadband Zone. Slower speeds can be expected outside Vodafone's 3G Mobile Broadband Zone.

See www.vodafone.com.au/coverage for details.
